PROFESSIONAL EXPERIENCE

02/2023 to Current **Hardware Sales Associate**

Lowes Home Improvement – Starkville, MS

- Answer customer questions about products and services, help locate merchandise, and promote key items.
- Use in-store system to locate inventory and place special orders for customers.
- Open, shelf and merchandise new products in visually appealing and organize displays for optimal sales promotions.
- Provide exceptional services and pleasant shopping experiences to retail customers.

06/2020 to 05/2023 **Customer Service**

Home Depot – Picayune, MS

- Answered incoming calls and emails from current customers and asked open-ended questions to determine needs.
- Developed lasting relationships with customers, which helped to bring in additional business opportunities.
- Updated customer service database with new information, address changes and contact details.
- Collaborated with customer service department to discuss new ways to alleviate service issues and computer errors.
- Created special orders and quotes for customers.
- Handled multiple computer systems.

11/2018 to 05/2019 **Plugged In**

Mississippi State University

- A valuable and reliable member of Plugged In, which was our team's name for our ECE Design class. In this team I provided efficient and valuable knowledge of electronic components, where I also had to collaborate with my other electrical engineering team members to help build the circuit on the breadboard and implement clean and successful soldering. I also added basic knowledge to the code that was involved in functioning the E-Shower head.
